Fever and Ague. Dr. Edward Bleecker's

STAMPEDE MIXTURE. FOR THE FEVER AND AGUE,

THE Proprietor of this Medicine will state, without hesitation or fear of contradiction, that the STAMPEDE MINTURE has cured more persons where it has been introduced, than any other medicine in use for the above diseases. This medicine has neither Arsenic nor Quinine in its composition, all of the ingredients are of a perfectly healthy character, and highly stimulating and invigorating in their tendency. Persons while using this medicine will not be affected by exposure to water or a damp atmosphere no more than when in their usual health. Planters in sections of the country where the Ague prevails, will do well to adopt this medicine, as the patient is not obliged to lay by while under treatment and they may be assured of a speedy cure. The To Millers, Engineers, &c. Proprietor could introduce thousands of certificates from those of the highest respecta-

proof in yourself. Full directions for its use accompany each bottle. Certificates can be seen at the office, shownotice and of any required degree of ing where this medicine has cured when all

Dr. A. G Brogg & Co .- Gents: You will probably recollect that I called into your establishment some three weeks since and purchased a fifty-cent bottle of your "MEXICAN MUSTANG LINIMENT." My object in doing so was to try its merits apon my daughter's arm, who has been suffering from the effect of a severe dislocation

hearty food in weak and dyspeptic habits. These pills act as an expectorant, tonic and aperient, and are designed to supersede the use of the various cough remedies in the form of expectorants, syrups, balsams and sarsaparillas of the present day, being what the public have long needed, and put at such a low price that all will be ablo to obtain them. One box of these pills which costs but 25 cents, possesses four times the power in curing the diseases for which they are recommended, than the high priced one dollar bettles of any of the expectorants, syrups, balsams, or sarsaparillas now before the public-and a fair trial of them will convince any one of the truth of this statement.
